Projects

Pro Dual: System through Benchmarking, August 2008 – July 2010

The European Office of TUM, the Chamber of Commerce and Industry for Munich and Upper Bavaria (IHK), and the European Office of the City of Munich are taking part in a Pro Dual project, which is organized by the City of Helsinki, Bureau of Apprenticeships. Participants from Germany, Austria, Finland, the Netherlands, and the United Kingdom meet each other in five three-day seminars within the project. The seminars are organized in the partner countries. Themes of the project are the benchmarking system and quality management in the different partner countries.

Quality Management for Trainers, August 2009 – April 2010

The project is carried through in cooperation with the University of Helsinki, Palmenia Centre for Continuing Education and it consists of two one-week seminars in Helsinki, Finland. The first flow was organized in Helsinki from August 31st – September 5th 2009 and the second flow takes place from April 11th – 17th 2010. During the seminar, the participants learn about the Finnish school system, the quality management practices in Finland, and Finnish best-practice models in reducing drop-out rates.

Leadership and Quality Management for VET-Professionals (planned for Autumn 2010 – Spring 2011)

In four partner countries (Finland, Estonia, Sweden and the United Kingdom) organized projects consist of four one-week seminars in Gothenburg (SWE), Helsinki (FIN), Tallinn (EST), and in Wales (UK), with an emphasis on the different leadership and quality management models in vocational education institutes.

CROCUS – Cross Cultural Workshop, (planned for October 2010)

An international one-week workshop-seminar in Wales, where school personnel from different European countries (teachers and trainers) have the opportunity to learn English with the help of job-shadowing and different lectures regarding British school leadership. Excursions to schools, universities and to the Welsh Assembly Government will be organized.

Completed projects

Leadership in Education Programme International, September 29th – October 3rd 2008 and planned for 2010-2011

A one-week seminar for school leaders, which was organized in 2008 together with TUM and the National Institute of Education (NIE) of the Nanyang Technology University (NTU), Singapore. The themes of the project are e.g. leading through motivation, innovations in education, and the elements of success and failure in the process of change.
Further Training for EU-Coordinators, March 17\textsuperscript{th} – 18\textsuperscript{th} and November 12\textsuperscript{th} – 13\textsuperscript{th} 2009

The two-day training course organised to support EU-coordinators and educational personnel involved in international mobility, and to offer European knowledge, information, experiences, and tools for mobility and internationalisation strategies.

Lehrertage der TUM – Continuing education seminar for teachers, February 22\textsuperscript{nd} – 25\textsuperscript{th} 2010

Continuing education for teachers of mathematics, informatics, and natural and technical sciences in Bavaria. In the three-day seminar academics from the TUM give lectures and workshops for secondary school and vocational school teachers.
